Innovation and Design thinking workshop

On theme of Startups and Entrepreneurs, 1-day workshop was organized by Innovation IEEE MJCET Student Branch in collaboration with IEEE Technology & Engineering Management on —Innovation and Design ThinkingII on 1st February 2020 at MJCET Seminar Hall. Speaker of the workshop was Mr. Achutha Rao. He was former center head of National Institute of Design at Bangalore and the research chair holder of O P Jindal design at NID R&D Campus. The event was very interactive and real time practice exercises were also planned. It was well appreciated by all attendees and requested to arrange more such sessions to motivate the startups. At the end, Dr Mohammad Arifuddin sohel, Prof & Head ECE, MJCET proposed the vote of thanks. Around 30 participants were benefitted from this workshop.

Equipment in Power Plants- Concepts, Operation & Design Aspects

A technical talk was organized by IEEE PES/IAS/PELS Jt. Chapter, Hyderabad section in collaboration with GRIET, Hyderabad on —Electrical Safety challenges in Distribution SystemsII on 8th Feb 2020. The speaker of the event is Sri Sree kumar Nhalur, Prayas group, Pune. The objective was to understand the cause of accidents and promote measures to reduce them. The first step was to understand why and where the accidents occur, and who could be the victims. Based on this, some ideas

on how to prevent accidents were being developed. The Program included a video on safety awareness, brief details about reports submitted to distribution companies, suggestions to regulatory bodies, training programs and field implementation of safe starter for agriculture pumpsets. In this Program details were presented on how this IEEE-Group collaborated with world-wide to learn from their experiences. Around 120 members have participated in the session.
